

Understanding Institutional Review Board (IRB) Office Metrics

Number of active protocols at close of FY2017

This represents the number of protocols active in the eIRB system at close of FY2017. “Active” is defined as non-exempt and exempt.

Total number of new protocols approved in FY2017

This represents the number of new study protocols which were approved in FY2017.

Total number of submissions in FY2017

This represents all submissions to the IRB in FY2017, including new studies, modifications, continuing reviews, non-human research determinations and Reportable New Information submissions.

Total users registered in eIRB system

This represents the total number of users who are registered in the eIRB system in this fiscal year (including faculty, study coordinators, research staff, and students).
